Education

Ph.D., Policy Analysis and Management, Cornell University	(Expected 2019)
M.S., Policy Analysis and Management, Cornell University	2017
B.S.B.A., Business Economics (<i>magna cum laude</i>), University of Arizona	2012

Research Interests

supply-side health economics: health insurance, safety-net providers, hospitals, pharmaceutical marketing

Research Experience

Graduate Research Assistant, Professor Sean Nicholson, Cornell University	2015; 2018
Research Transparency Intern, J-PAL Global	2018
Graduate Research Assistant, Professor Samuel Kleiner, Cornell University	2015 - 2017
Undergraduate Research Assistant, Professor Tracy Regan, University of Arizona	2012
Undergraduate Research Assistant, Professor Price Fishback, University of Arizona	2011 - 2012

Work in Progress

The Effects of Prescription Drug Coupons on Generic Drug Use, Adherence, and Competition: Evidence from Three Drug Classes (*Job Market Paper*)

Prescription drug coupons—offers from pharmaceutical companies to pay a portion of a patient's out-of-pocket prescription cost—are the subject of a current and growing debate. Insurance companies and governments are concerned that coupons increase costs without improving health by shifting patients away from generic drugs and towards costly, brand-name drugs. Pharmaceutical companies allege that coupons improve medication adherence, thus improving health and lowering overall healthcare spending. In this paper, I address this debate by using insurance claims from 2007 to 2016 to estimate the effect of coupons on generic drug use, medication adherence, and brand-to-brand competition for drugs in three drug classes: statins, antipsychotics, and acne treatments. I take advantage of a law in Massachusetts which barred residents from using coupons and was amended in 2012 to allow coupon use *only* for drugs without a generic equivalent, to estimate difference-in-differences and triple-difference models. The results indicate that coupons decrease generic drug use as measured by an estimated 1.9 percentage point (16%) decrease in generic efficiency, and a 2.9 percentage point (35%) increase in the use of “dispense as written”. I find no evidence that coupons shift patients away from older, generic drugs and towards newer, brand-name drugs. Additionally, I do not find evidence that coupons affect medication adherence or brand-to-brand competition. The results are consistent with the notion that prescription drug coupons increase costs without improving health.

Fellowships & Grants

Mathematica Summer Fellowship, Washington D.C.	2018
Morgan Teaching Assistantship, Cornell University	2016; 2017
SUNY Graduate Diversity Fellowship, Cornell University	2014; 2016; 2017
Wimberley-Johnson Scholarship, University of Arizona	2015 - 2016
Wildcat Excellence Scholarship, University of Arizona	2013 - 2014; 2016 - 2017
	2011
	2007 - 2011

Conference & Seminar Presentations

2018	Institute on Health Economics, Health Behaviors & Disparities Seminar (Ithaca, NY; upcoming)
	Association for Public Policy Analysis & Management (Washington, DC; upcoming)
	Mathematica Policy Research (Washington, DC)
2017	International Health Economics Association World Congress (Boston, MA)
	Association for Public Policy Analysis & Management Student Conference (Arlington, VA)
	Eastern Economic Association Conference (discussant; New York, NY)
2016	American Society of Health Economists (Philadelphia, PA)

Teaching Experience

Cornell University

Teaching Assistant, PAM 4370: Economics of Health Care Markets, Prof. Samuel Kleiner	2015
Teaching Assistant, PAM 2000: Intermediate Microeconomics, Prof. Samuel Kleiner	2015
	(4.67/5.00; 1=poor, 5=excellent; evaluations available upon request)
Teaching Assistant, PAM 2350: The U.S. Health Care System, Prof. Sean Nicholson	2014

University of Arizona

Undergraduate Teaching Assistant, Econ 150: An Economic Perspective (Prof. Tracy Regan)	2011
---	------

Academic Service

Volunteer Tutor, Columbus Metropolitan Library	2017 - Present
President, Graduate Students in PAM, Cornell University	2015 - 2016
PIER Seminar Coordinator, Graduate Students in PAM, Cornell University	2015 - 2016
Graduate School Orientation Leader, Cornell University	2014

Professional Activities & Affiliations

Institute for Health Economics, Health Behaviors and Disparities, Cornell University
 American Society of Health Economists
 Eastern Economic Association
 Association for Public Policy Analysis & Management

Software Skills

STATA, SAS, Python, Git/[GitHub](#), SQL, Linux/Unix, Excel, L^AT_EX
